

Supplementary Table 2: Pandemic Delays in Gender-Affirming Care

Patients were asked whether they had to miss, postpone or cancel a planned clinic visit for hormones or to see their behavioral/mental health therapist. They were asked whether they had to miss, postpone or cancel a planned clinic visit with a surgical provider, and if they had to postpone or cancel a planned surgical procedure.

MODALITY OF CARE	DUKE PATIENTS				NATIONAL PATIENTS			
	YES	NO	TOTAL	PERCENT	YES	NO	TOTAL	PERCENT
Behavioral	23	45	68	34%	27	9	36	75%
Medical	1	13	14	7%	5	9	14	36%
Surgical	1	22	23	4%	4	32	36	11%
Surgical procedure	16	77	93	17%	6	9	15	40%
